

WE HAVE SOLUTIONS TO OUR CLIMATE CRISIS

DRAWDOWN: GETTING INTO ACTION

Join us to learn more about Project Drawdown, the most comprehensive plan ever proposed to reverse global warming. 200 researchers and scientists from 22 countries have identified, researched and modeled the 100 most substantive, existing solutions to climate change. Together, these solutions offer a path forward to roll back global warming by 2050.

In this five-session online course, you'll look in depth at solutions that are most appropriate to each of us and how we can implement them in our communities. You'll connect with others who share your interests and can collaborate with you on shared projects.

Course pre-requisite: Take a 90-minute Introduction to Drawdown online workshop: landing.pachamama.org/climate-change-solutions-course or join us for an introductory session on **Sunday October 25, 2020, 7-8:30 pm PST.**

GETTING INTO ACTION FIVE COURSE SESSIONS:

Sundays 7 - 8:30pm PST.

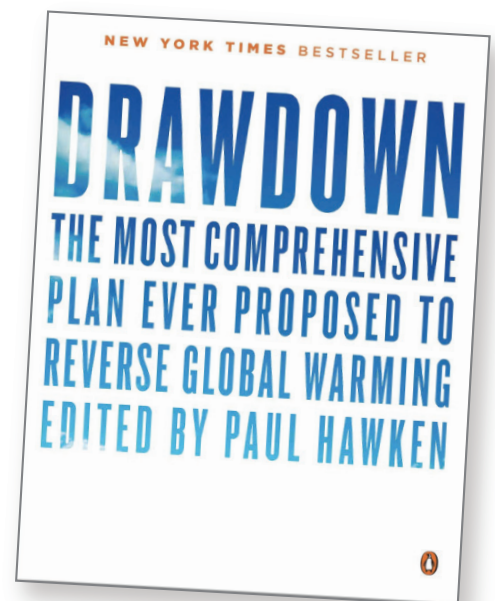

November 8, 15 and 22, December 6, 13.

Free Classes, but pre-registration required.

RSVP, limited tickets available: bit.ly/DrawdownAction
